

## BASIC BOARD COMMITMENTS: Philosophy

Equity

## I. Philosophy

- A. The Board of Education of Baltimore County (Board) believes that every student in the school system should receive an education that maximizes his/her potential to become a globally competitive graduate. The Board is committed to the success of every student in every school.
- B. Raising achievement for all students and closing achievement gaps among all students are top priorities of the Board.
- C. Disparities on the basis of race, special education status, gender, ethnicity, sexual orientation, English language learner (ELL) status, or socio-economic status are unacceptable and are directly at odds with the belief that all students can achieve. While complex societal and historical factors contribute to the inequities our students face, rather than perpetuating disparities, the school system must address and overcome institutional inequity by providing all students with the opportunity to succeed.

## II. Guidelines

- A. In order to advance these goals, the Board directs the Superintendent to:
  - 1. Report to it annually the progress made toward increasing student achievement.
  - 2. Include in any and all facilities plans for new construction and in the renovation of existing facilities, considerations of equitable access to twenty-first century learning environments.
  - 3. Include cultural responsiveness in reviews of curriculum and assessment design.
  - 4. Identify annually whether the discipline process has any disproportionate impact on minority, English language learner status students, or a negative impact on special education students.
  - 5. Recruit and increase participation of persons from underrepresented groups in advanced academics.
  - 6. Report annually on the employment, retention, recruiting, and placement of persons from underrepresented groups.

III. Implementation

The Board directs the Superintendent to implement this policy.
