

BILL: Senate Bill 154
TITLE: Vehicle Laws - School Bus Monitoring Cameras - Civil Penalty
DATE: January 25, 2017
POSITION: SUPPORT
COMMITTEE: Judicial Proceedings Committee
CONTACT: John R. Woolums, Esq.

The Maryland Association of Boards of Education (MABE), representing all of the state's local boards of education, supports Senate Bill 154.

MABE supports this bill in order to advance the abilities of school systems and local law enforcement agencies to protect the health and welfare of Maryland's most precious resource, our students. MABE represents 24 local boards of education with a unified commitment to ensuring student safety in all school-related activities, and especially school bus safety.

In 2011, MABE strongly supported enacting a new law to authorize a law enforcement agency, in consultation with a local board of education, to place school bus monitoring cameras on local school buses. This law has empowered local law enforcement agencies to issue warnings or citations not to exceed \$250 to vehicle owners or drivers for failing to stop for a school vehicle that has stopped with its alternately flashing red lights operating in accordance with the Maryland Vehicle Law. As every driver knows, buses stopped for these purposes employ alternately flashing lights, and extending stop signs, and yet the numbers of drivers failing to stop in response to these obvious warnings are alarming.

Therefore, MABE strongly supports Senate Bill 154 in order to set the fine at \$250. MABE firmly believes that this bill will contribute significantly to heightening public awareness and improving driver behavior relating to the critical safety risks ever-present when school buses are engaged in loading and unloading students.

For these reasons, MABE requests a favorable report on Senate Bill 154.
