### Safe and Supportive Schools with Verjeana Jacobs

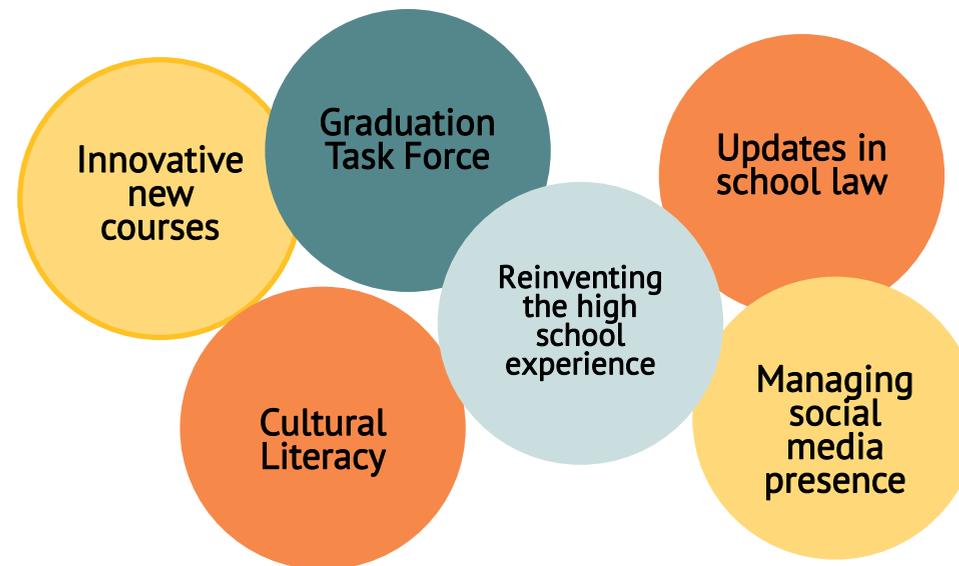

Shift the paradigm, change the story, and alter a child's life trajectory by fostering a positive learning environment. Far too many students feel unsafe, unseen, and unsupported at school, yet far too many schools lack understanding about how to meet the needs of all their students, particularly those who are most vulnerable and historically underserved.

This session explores ways to ensure safe learning environments that avoid blaming the child, and instead focuses on empathy and healing.
