Custom PBM and Clinical Programs

Keenan Pharmacy Services has developed preferred PBM relationships and clinical programs to provide your organization with the most savings and flexibility for your pharmacy plans.

Keenan Pharmacy Purchasing Coalition –

Clients of all sizes can tap into deeply discounted pricing and rebates that are normally only achievable in the largest of buying groups. The Coalition provides financial guarantees and complete pricing transparency including built in audits. All fees and pricing components are fully disclosed and is intended to eliminate hidden “optics” that are prevalent in the industry.

EmpiRx Health – If you are looking for plan flexibility and cost savings, EmpiRx is a great solution. They provide dollar-for-dollar clinical savings guarantees to ensure you see a reduction in total pharmacy spend. They focus on appropriateness of care not volume; as a result, EmpiRx reduces overall drug spend for their clients by over 15% on average.

Keenan Pharmacy Care Management –

This program integrates with your PBM to ensure that the best possible drug therapies are chosen, based on their clinical effectiveness and overall cost to patients and the plan. With Clinical Care Management, there is no disruption to your PBM or plan design. Best of all, you get savings guarantees so there is really no risk to you.
