

Serving the Education Community

Educational Systems Federal Credit Union has proudly served the education community for more than 60 years. We support teachers, administrators, support staff, parents and students in eight school systems and three community colleges throughout Anne Arundel, Calvert, Caroline, Charles, Montgomery, Prince George's, St. Mary's and Talbot counties in Maryland. If you work for or you're retired from a different public school system, private school, college or university, you can also become a member through the Support Education Foundation.

Learn how we are helping members of the education community achieve their financial goals and dreams in our **2019 Annual Report**.

Support Education Foundation

The Support Education Foundation was established by Educational Systems FCU and is named after the Credit Union's mantra of Support Education. The Foundation is dedicated to raising funds for student scholarships, professional development awards and other initiatives to help students and educators. Visit SupportEducation.org to learn more.

Products and services for the education community

We understand the unique needs of the education community, so we customize our products and services. Our **Premium Summer Pay** account pays a high interest rate and helps members of the education community save a portion of every paycheck during the school year to cover summer expenses. Also, when members finance an auto loan, we offer a **Summer Skip Payment Option**.
